MODULAR CABINETS › Custom Workspaces

> Modular cabinets

AGF Brome designed and developed an innovative concept in the making of customized workspaces having as an objective to optimize the storage space, access to tools, parts and commodities and therefore increase the productivity of your staff and professional image of your company.

AGF Brome conceives their custom workspaces by using the modular cabinets part of 17 and 27 Series to offer a perfect fit to perfectly respond to customers needs while optimizing the return on investment.

AGF Brome conducted scores of projects as many different markets, therefore demonstrating the expertise of their team. You will find in the next pages some AGF Brome achievements.

AGF Brome technical team together with its certified distributors offer a full analysis of your needs. We then propose a custom workspace made of modular cabinets. We offer a detailed proposal, including 3D color drawings, to visualize the finished project.

Please contact us to talk about your project !

AGF Brome has developed specific expertise in the making of custom workspaces for factories and workshops distinguished by the optimization of storage space and time saving work methods.
